

“Aliens from a smarter, healthier planet beamed it down to earth in exchange for cows.”

BEAUTIFUL AND SAFE FOR YOUR FAMILY?
NO WONDER THEY CALL IT A MOTHERSHIP.

The number of accounts are staggering. Parents across the nation all report the sighting of thousands of bright, durable colors from a paint with zero VOCs and zero toxins. How can this paint have such strength and beauty, yet be free of dangerous fumes? Did Mythic®, the world's only high performance, non-toxic paint come to us from intelligent life forms? Knowing that it's completely safe for children, it's hard to explain otherwise.
