

“They discovered a lost city with magical pools of paint. Its villagers have won several design awards.”

THOUSANDS OF COLORS. ZERO TOXINS.
THE TOOL OF A MUCH HEALTHIER TRADE?

They say the biggest breakthrough in the paint world may have come from a lost one. Because of this storied discovery, your clients can now have bright, durable colors with zero VOCs and zero toxins. Which means you can paint for a living without breathing harmful fumes on a daily basis. Did Mythic®, the world's only high performance, non-toxic paint come from some magical place far removed from civilization? While the experts may scratch their heads, we do know this: Their lungs are quite happy with the news.
