## Decorative Tiles

### Eco-Gres® Mosaic

Eco-Gres Mosaic is an unglazed porcelain mosaic which is manufactured with 90% post-industrial recycled content. This slip-resistant tile lends itself for use in wet areas, outdoors and high traffic interior applications. Tiles measure 1" x 1" back-mounted on a 1/2" x 1/2" sheet. Eco-Gres Mosaic Tile is produced by Coverings Etc. of Miami, Fla. This company specializes in tiles, slabs and countertop surfaces which possess a high degree of style as well as a high recycled content.

### Advantages

- Non-toxic and mold resistant
- Heat and frost resistant
- Extremely durable
- Made from 90% post-industrial waste
- May qualify for several LEED credits
