

HVAC

The TA-SCOPE is a wireless handheld device that allows users to verify, measure, and maintain complex hydronic systems quickly and efficiently. By measuring differential pressure, flow, temperature, and power, the device contributes to lower energy costs with added accuracy and ease in the hydronic balancing process. An independent wireless sensor communicates with the TA-SCOPE to deliver data quickly so you can troubleshoot hydronic problems and log system performances on-site. **TA-SCOPE by Victaulic. Circle 217.**

INTERIORS

Available in almost any color, Mythic Pro is a non-toxic, ultra-low odor, high quality latex paint line. Users can breathe easier with a zero-VOC paint while still having the same coverage and durability as traditional paints. The paint is formulated to minimize off-gassing yet still breathes to allow for air exchange. Mythic Pro is available in sheens ranging from flat to semi-gloss and in 1- and 5-gallon pails. **Mythic Pro by Mythic Paint. Circle 218.**

HVAC

The EcoBreeze combines evaporative, air-to-air heat exchange, and DX techniques for optimized system efficiency, automatically selecting the most effective mode based on local data center conditions. The unit meets the increased need for alternative cooling approaches that integrate multiple methods of economization in a single solution. EcoBreeze also incorporates an indirect Evaporative Cooler (IEC) module that segregates the data center air from outdoor air, eliminating airborne contamination or excessive moisture penetration. **EcoBreeze by APC / Schneider Electric. ELECTRONIC FLOWHOOD™

DIRECT DIGITAL READOUT 25-2500 CFM

AUTOMATICALLY CORRECTS FOR AIR DENSITY & BACKPRESSURE
CHOICE OF METERS - AIR FLOW ONLY, OR AIR FLOW,
VELOCITY, PRESSURE & TEMPERATURE
OPTIONS INCLUDE: MEMORY, AVERAGE & SUM TO 3000
READINGS, SEQUENTIAL RECALL, AUTO-READ
REPAIR POLICY TWO WEEK TURNAROUND OR LESS
CUSTOM TOPS MADE TO ORDER

LIGHTING

Sky Factory Luminous SkyCeilings are virtual skylights - photographic illusions of real sky views that trigger beneficial relaxation responses for mind and body. They are modular and can be designed to fit any rectangular shape, or arrangement of shapes, defined by the suspended ceiling grid. Luminous SkyCeilings are scalable from a single 2'-by-2-foot square to as large as you need. They are also available in sky tiles, elevator panels, and an LED option. **Luminous SkyCeilings by Sky Factory. Circle 220.**
