Paint contains many toxins and odors that may be harmful to your health, but when repainting a room, what other choice do you have? There may be a solution- Mythic Paint (\$40-\$65/gallon depending on the sheen) is a non-toxic, zero voc, ultra low odor paint that provides the durability and coverage you expect from a premium paint. It is created in a zero emissions facility and is packaged in recyclable containers. These paints are compliant with the LEED programs and is available in 1,232 colors and in all sheens for interior and exterior use. To purchase mythic paint or for more information visit [mythicpaint.com](http://mythicpaint.com)
