## A lot to see

Those thinking of visiting the Totally shows should be sure to visit M-Ports Ltd and see what it proudly describes as "the greatest range of unique earth-friendly, problem solving products available today!" M-Ports distributes top US brands including Krud Kutter, Mythic Paint and UGL, all of which offer high performance products with a minimal health and environmental impact.

Krud Kutter offers a comprehensive range of industrial-strength biodegradable cleaners, degreasers and stain removers. Products are water-based, biodegradable, non-toxic, and VOC compliant, yet can tackle extremely tough stains such as oil, grease, tar, wax, graffiti, paints, adhesives, rust, gum, weathering and much more on numerous surfaces. An established brand in the USA, the products are used by major industrial applicators such as Ford, General Motors, Boeing, and Kennedy Space Centre, as well as schools, hospitals, hotels, theme parks, and numerous contractors.

M-Ports says that Mythic Paint is the world's first and only high performance non-toxic paint, with zero VOC's, zero toxins and zero carcinogens. With over 1,200 vibrant colours available, the collection offers style and beauty, yet remains completely safe for humans, pets and the environment. "Mythic meets and exceeds all current green and environmental standards. As far as the paint world is concerned, it's the breath of fresh air we've all been waiting for," says the distributor.

United Gilsonite Laboratories (UGL) is a manufacturer of some of the most innovative problem solving paint and maintenance products. UGL produces two key ranges which include masonry paint brand Drylok, and also the ZAR wood finishing range which is filled with award-winning products formulated to meet the high standards and time constraints of the most demanding professionals.

All this will be on show, as well as a competition to win some great prizes including an Apple iPad.

See M-Ports at the Totally shows, stand G51. For more information call 0161 4082855, email [matt@krudkutter.co.uk](mailto:matt@krudkutter.co.uk), or visit [www.krudkutter.co.uk](http://www.krudkutter.co.uk)

## New products from Sealey

On show at the Totally shows will be Sealey's range of new products, from its biggest and best ever catalogue. Included in the selection are four products that have been entered into the 'Best New Product' ShowStopper Awards. These include the CP5004 Cordless Lithium-ion Angle Grinder and CP5001 Cordless Lithium-ion Impact Wrench, from the new range of 'one battery fits all' 18v Power Tools. Each product is available separately, or supplied with the battery and mains charger, enabling consumers to put together their own tool kits according to their needs. Also available within the range is a Cordless Drill/Driver and a Work Light. Helping to complete the range is the SAC05020 50-litre Oil-Free Belt Drive Compressor, with vertical tank to save space around the workshop, and the ATD101 Auto-Retractable Ratchet Tie Down, with push-button auto rewind function. See Sealey at the Totally shows, stand E70. For more information visit [www.sealey.co.uk](http://www.sealey.co.uk)

## Precise painting from Cut in Edge

Cut in Edge (CIE) is an exciting new brush designed to enable users paint without getting spills on doorframes and electrical sockets. The focus on innovation and quality means that trade or DIY users will reap the rewards; the manufacturer says the brush is affordable, eco-friendly, biodegradable, using materials that are

totally recyclable, as well as being practical, simple, easy to use, time saving, and offering a cleaner more precise finish.

CIE is part of a new developing brand that offers appealing products internationally. See CIE at the Totally shows, stand F9. For more information contact Mr A. L. Powell: call 07975 628822, or email [cozi.powell@btinternet.com](mailto:cozi.powell@btinternet.com)
